UNITED STATES GOVERNMENT

Memorandum

U-0144/SWS

TO : SA/DCI/SW

DATE: 3 Sep 1975

FROM : SWS

SUBJECT: Possible Discussion of Personnel Shortages (SWS) at USIB Meeting, 11 September

1. As you may recall, during Mr. Colby's visit of the SWS the question of the vacant State, Navy and Army billets was discussed. At that time, LGEN Wilson indicated that he would look into the problems and see what could be done.

2. Recently, Major Anselmo of the IC Staff has been in contact with us to obtain background information on the vacant billets in order to prepare a talking paper for GEN Wilson to be presented at the USIB meeting on 11 September. Major Anselmo has received a verbal briefing on the status of the Navy and Army. He has subsequently asked that we provide copies of any correspondence that relates to any actions taken. If you have no objection, I propose to send him copies of the attached.

3. I have also attached, for your background only, copies of the memos between you and Jim that relates to this subject.
